OnHire System Audit Framework for Client COMPANY NAME

Casual Staffing OnHire Industry Best Practices & Compliance Review

1. Introduction

This Entire OnHire system audit provides a structured assessment of Client COMPANY NAME (COMPANY NAME) workforce management system. It aims to provide alignment with casual staffing industry best practices, operational efficiency, compliance, and technology utilisation.

This framework will review key system areas of the Entire OnHire system such as recruitment, candidate onboarding, rostering, workforce compliance, payroll, reporting, and system automation while highlighting and suggesting what we see as best practices across our client network or OnHire Casual Staffing Agencies.

2. Key System Audit Elements & Industry Best Practices
